

UNIVERSITY STUDENT REGISTRATION AND FINANCIAL GUIDELINES ACADEMIC YEAR 2025-2026

SECTION 1: COURSE REGISTRATION PROCEDURES All students are required to formally register for their modules at the beginning of every semester. The registration process confirms the student's status and secures their place in the selected classes. Failure to register by the stipulated deadline will result in a late penalty and may jeopardize the student's ability to continue their studies for that term. The university utilizes a staggered registration system based on credit hours earned to ensure a smooth flow of traffic on the digital portal.

The standard procedure for course registration is as follows:

1. Consult the academic calendar to determine your specific registration window.
2. Meet with your academic advisor to discuss degree requirements and electives.
3. Log in to the student portal and navigate to the course selection tab.
4. Enter the specific course codes for the modules you wish to take.
5. Verify that there are no time conflicts between selected classes.
6. Click the confirm button to finalize the selection.

Once the initial registration period closes, an Add/Drop period follows for the first two weeks of the semester. During this time, students may adjust their schedules without academic penalty. However, dropping a course after this period will result in a withdrawn status on the record. It is the student's responsibility to ensure that they are correctly registered for the exact number of credits required for full-time status.

SECTION 2: TUITION AND FEE PAYMENT POLICY The payment of tuition and associated fees is a mandatory requirement for enrollment. The university fee structure is reviewed annually and is subject to change. A detailed breakdown of the fee schedule is published on the finance website before the start of the academic year. This includes tuition costs per credit hour, laboratory fees for science courses, and general service fees.

Students must adhere to the following payment regulations:

- Full payment of tuition is due by the first Friday of the semester.
- Installment plans are available but must be applied for and approved two weeks prior to the start of the term.

- A late payment fee is automatically applied to any account with an outstanding balance after the deadline.
- Students with unpaid fees will be blocked from viewing their results and will not be permitted to register for the subsequent semester.

Payment methods accepted by the bursar's office include:

- Online bank transfer via the secure payment gateway.
- Credit or debit card payments made in person or online.
- Cheques made payable to the university (must be submitted 5 working days before the deadline to allow for clearing).
- Scholarship vouchers or financial aid disbursement letters.

Refunds for tuition fees are only processed if a student formally withdraws from a course or the university within the specified refund period. No refunds are granted for withdrawals made after the fourth week of the semester.

SECTION 3: STUDENT ID CARD REGULATIONS The student identity card is the primary form of identification on campus and serves multiple functions beyond simple verification. Every registered student is issued an ID card during their first orientation week. This card is non-transferable and must be carried at all times while on university property.

The ID card is required for the following activities:

- Gaining entry to the campus library and borrowing books.
- Accessing examination halls and secure laboratories.
- Utilizing printing and photocopying services.
- Identifying oneself to security personnel upon request.
- Accessing meal plans at campus cafeterias.

If an ID card is lost or stolen, it must be reported to the security office immediately to deactivate the card and prevent unauthorized use.

The replacement process involves the following steps:

1. Report the loss via the online student portal.
2. Pay the replacement fee at the finance counter.
3. Bring the payment receipt to the student services centre.

4. Have a new photo taken if the previous one is older than two years.
5. Collect the new card, which is usually printed on the spot.

Students are warned that damaging the card, punching holes in it for lanyards, or defacing the photograph will render the card invalid, necessitating a replacement at the student's expense. The ID card remains the property of the university and must be surrendered upon graduation or withdrawal from the program.
